TITLE: Nutritional complement for infants and adults of soya milk and colostrum

Equivalent Abstract Text (2):

Preferred ingredients: the soya or okra juice is in liquid or powdered form, and is obtained from non-genetically modified sources, free from chemicals and pesticides and bacteriologically neutral. The colostrum may be obtained from cows, mares, goats or asses. Animal organ extracts may be from liver, brain or pancreas tissue. The product is preferably prepared in gel form, packed as single doses in a flexible bag or syringe. No further detail is given in the source material.
